Subject: Kinder Morgan - Dredging

FYI

I met with Kinder Morgan to discuss Willbridge source control issues today. I asked and they told me that they received ACOE dredging permits for both the Kinder Morgan Willbridge and Linnton terminals last month. No details on when or the scope of the dredging just that they got the permits.

The Kinder Morgan environmental engineer in charge of the dredging will be at our barrier wall scoping meeting tomorrow so if you all want me to ask anything more let me know.

Mike
